“Services may be delivered by an individual provider, or a team of providers, who is working under the direction of a licensed practitioner operating within their scope of practice. Only licensed, waived, or registered mental health providers and licensed substance use disorder services providers are listed on the Plan’s provider directory.”

DEFINITIONS TO KNOW

Assessment: a service activity designed to evaluate the current status of a beneficiary's mental, emotional, or behavioral health.

Plan Development: a service activity consisting of the development of client plans/problem lists, approval of client plans/problem lists, and/or monitoring of a beneficiary's progress related to the client plan/problem list.

Collateral: a service activity provided to a significant support person in a beneficiary's life for the purpose of meeting the needs of the beneficiary in terms of achieving the goals of the beneficiary's client plan.

Individual Therapy: a service activity delivered to an individual beneficiary with a therapeutic intervention that focuses primarily on symptom reduction as a means to improve functional impairments. This may include family therapy.

Group Therapy: a service activity delivered to a group of beneficiaries with a therapeutic intervention that focuses primarily on symptom reduction as a means to improve functional impairments.

Individual Rehabilitation: a service activity which includes, but is not limited to assistance in improving, maintaining, or restoring a beneficiary's functional skills, daily living skills, social and leisure skills, grooming and personal hygiene skills, meal preparation skills, and support resources; and /or medication education.

Group Rehabilitation: a service activity which includes, but is not limited to assistance in improving, maintaining, or restoring a group of beneficiaries' functional skills, daily living skills, social and leisure skills, grooming and personal hygiene skills, meal preparation skills, and support resources; and /or medication education.

The following services may also be provided. Please talk with your therapist about these services:

Crisis Intervention: an immediate emergency response that is intended to help the client cope with a crisis (e.g. potential danger to self or others; potentially life altering event; severe reaction that is above the client's normal baseline, etc.) that requires a more timely response than a regularly scheduled visit.

Medication Management: prescribing, administering, dispensing and monitoring of psychiatric medications or biologicals that are necessary to alleviate the symptoms of mental illness. Service activities may include but are not limited to evaluation of the need for medication; evaluation of clinical effectiveness and side effects; the obtaining of informed consent; instruction in the use, risks and benefits of and alternatives for medication; and collateral and plan development

Case Management: a service activity that assists a beneficiary to access needed medical, educational, social, prevocational, vocational, rehabilitative, or other community services. The service activities may include, but are not limited to, communication, coordination, and referral; monitoring service delivery to ensure beneficiary access to service and the service delivery system; monitoring of the beneficiary's progress; placement services; and plan development.

Therapeutic Behavior Services (TBS): an intensive, individualized, one to one, short-term, outpatient treatment intervention for clients up to age 21 with Serious Emotional Disturbances (SED) who are experiencing a stressful transition or life crisis that is placing the individual at risk of an out of home placement or are at risk of a psychiatric emergency.
