Re: Sutter County Investment Portfolio Report for November 30, 2025

Following is the Sutter County Investment Portfolio report as of November 30, 2025. The schedule includes all short-term, mid-term and long-term investments held at the conclusion of business on the final day of the month. The Sutter County Treasurer and Tax Collector is given authority over the pooled investment portfolio through Board delegation pursuant to Government Code §27000.1. Investment activities of the pooled treasury are governed by Government Code §53601 as incorporated in the Sutter County Investment Policy. Investment of the county's, school districts' and special districts' surplus funds start with the objective of safety of the principle to minimize possibility losses. Following safety is the liquidity objective to provide coverage of day-to-day operations and to meet contingency as they arise. The final objective is earning a reasonable return or yield on the funds invested. The Sutter County Investment Policy may be found on the Treasurer's webpage at: <https://www.suttercounty.org/government/county-departments/treasurer-tax-collector>

As Treasurer and Tax Collector, I certify that this document reflects the government agencies' pooled investments and that all investments are in compliance with the County of Sutter Investment Policy.

The combined cash and investments in the county treasury total \$466,474,384.84 and will provide sufficient cash flow liquidity to meet estimated pooled treasury expenditures for the next six months.

Invested treasury funds total \$466,230,709.78 with \$289,055,805.81 under the management of the Local Agency Investment Fund, California Asset Management Program, CalTrust, and Money Market Mutual Funds with US Bank. The Bank of New York, which provides third-party safekeeping services to Sutter County, provides market value data. The dollar-weighted average maturity of invested funds is 202 days.

Investments are selected based on criteria contained in the Sutter County Investment Policy, which emphasizes safety, liquidity, yield, and diversification. Therefore, the interest rates will fluctuate, and the types of investments will vary depending upon county needs and market availability on a particular day.

Respectfully submitted,
